Sectional Garage Doors

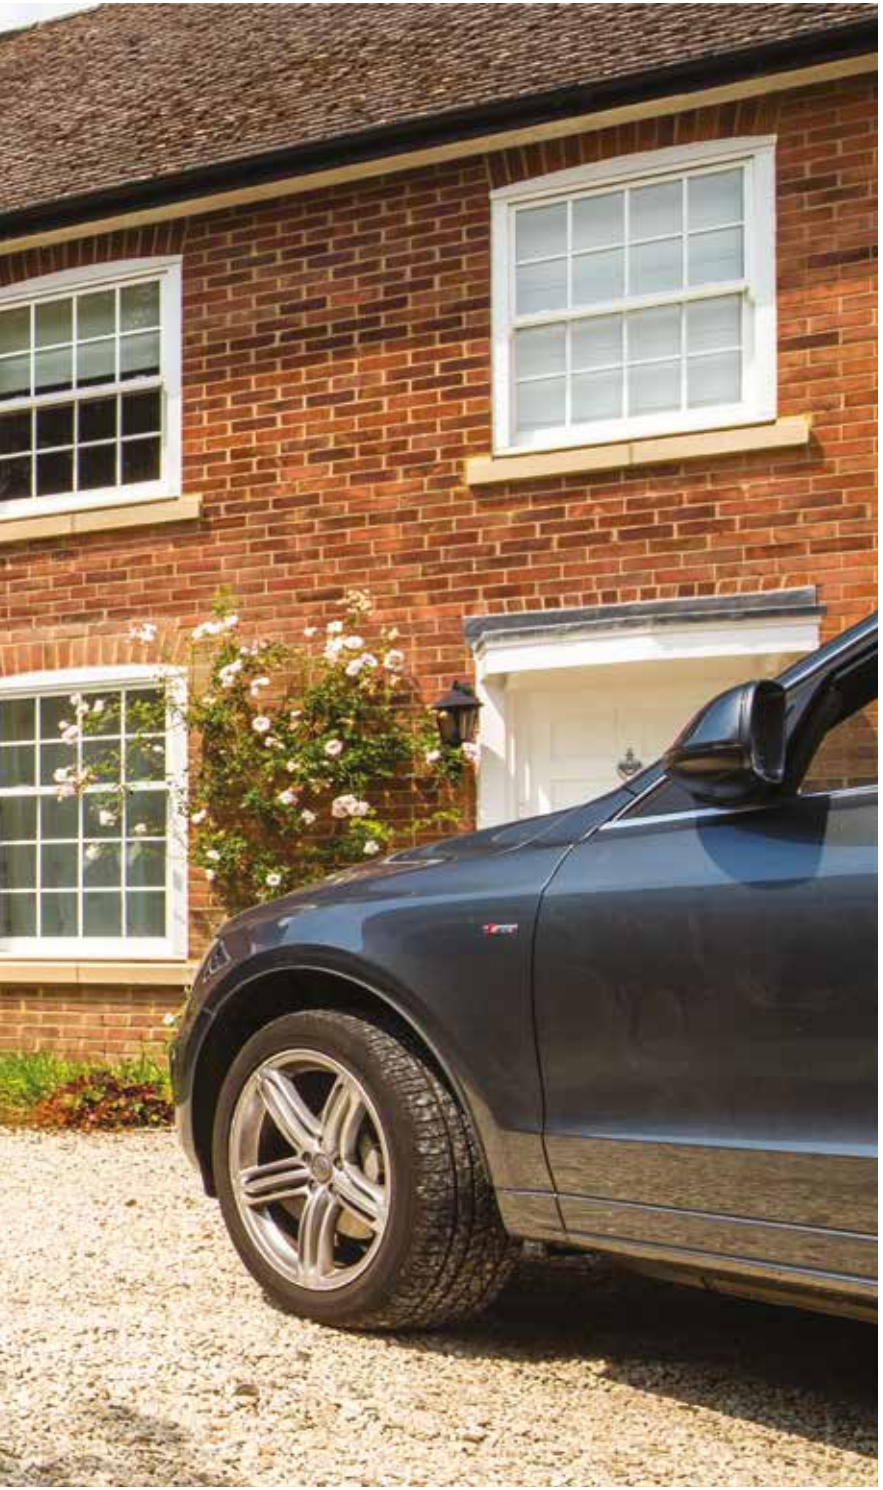
Anthracite Smooth Un-Ribbed



Your home deserves the very best.

Turn your garage into your home's best feature with a SeceuroGlide Sectional garage door.

Choosing the right garage door for you, your family and your home can be difficult but with the SeceuroGlide Sectional range of garage doors, we have developed a system that will not only transform the look of your property, but provide a quality, reliable solution that is as functional as it is attractive.

With many years' experience in the garage door industry we understand that deciding on a new garage door for your home is exciting, yet can at the same time be quite daunting. With so many things to consider, we have developed a door that addresses everything – security, kerb-appeal, ease of operation and choice – meaning SeceuroGlide Sectionals provide the perfect package.

The Choice is Yours....

Flame Red Smooth Centre Ribbed

Choose a door that fits around you.

When you decide to purchase a SeceuroGlide Sectional garage door, you are introduced into a world of choice, meaning every door is unique to its owner.

You are in control over how your door looks, so whether you want to match your neighbours or stand out from the crowd there is a design configuration that will suit you.

Deciding what matters to you will help you in designing the perfect door – would you like daylight in your garage? Choose from our selection of portholes and glazing. Would you like to match your door to your existing windows and doors? We have an extensive choice of colours including the ability to spray in any RAL colour!

A choice of accessories

Accessorise your door with a choice of stylish accessory options. To introduce light into your garage choose from a choice of stainless steel, porthole windows and glazing options. We also have a choice of aluminium handles. You even decide where your accessories are positioned!

Handles

Make it Yours...in 6 easy steps

Every step of the build is down to you. Beginning with your own specific sizes and ending with your choice of colour, finish and accessories the end result will be completely unique.

1. Fully bespoke sizing
2. Choose from 4 panel types
3. Choose from hundreds of colours
4. Choose your finish from smooth or embossed
5. Choose your accessories (windows and frames)
6. Choose your operator

"The choice of panels was excellent! Style is important to me and I wanted a door that blended in with the modern appearance of my home."

Contemporary Living

White Embossed Centre Ribbed

Design a garage door that complements family life.

SeceuroGlide Sectional Garage Doors provide reliable performance when you need it most, and are designed to accommodate everyday modern life.

Automated control means the doors can be operated with just the touch of a button, unlike the cumbersome opening associated with traditional up and over garage doors. The Black Edition operator features a unique locking system for added security.

If you value your time and don't want to spend your weekends cleaning the garage, you'll love the low-maintenance finish, especially if you opt for Anthracite Dura – our most durable finish which does a fantastic job of minimising dirt or marks.

Own the best-looking garage on your street, without compromising on safety!

The finger-safe design ensures fingers cannot be caught or trapped between the panels, meaning the door can be safely operated around pets and children without worries.

Every electrically operated SeceuroGlide Sectional has **obstacle detection** built into the motor, which means it will never close when anything is detected in its path, providing perfect peace of mind for all the family.

"My wife loves how easy it is to open and close the door. Getting the bikes in and out of the garage is so quick now!"

NEW
Anthracite Dura

Our most durable finish

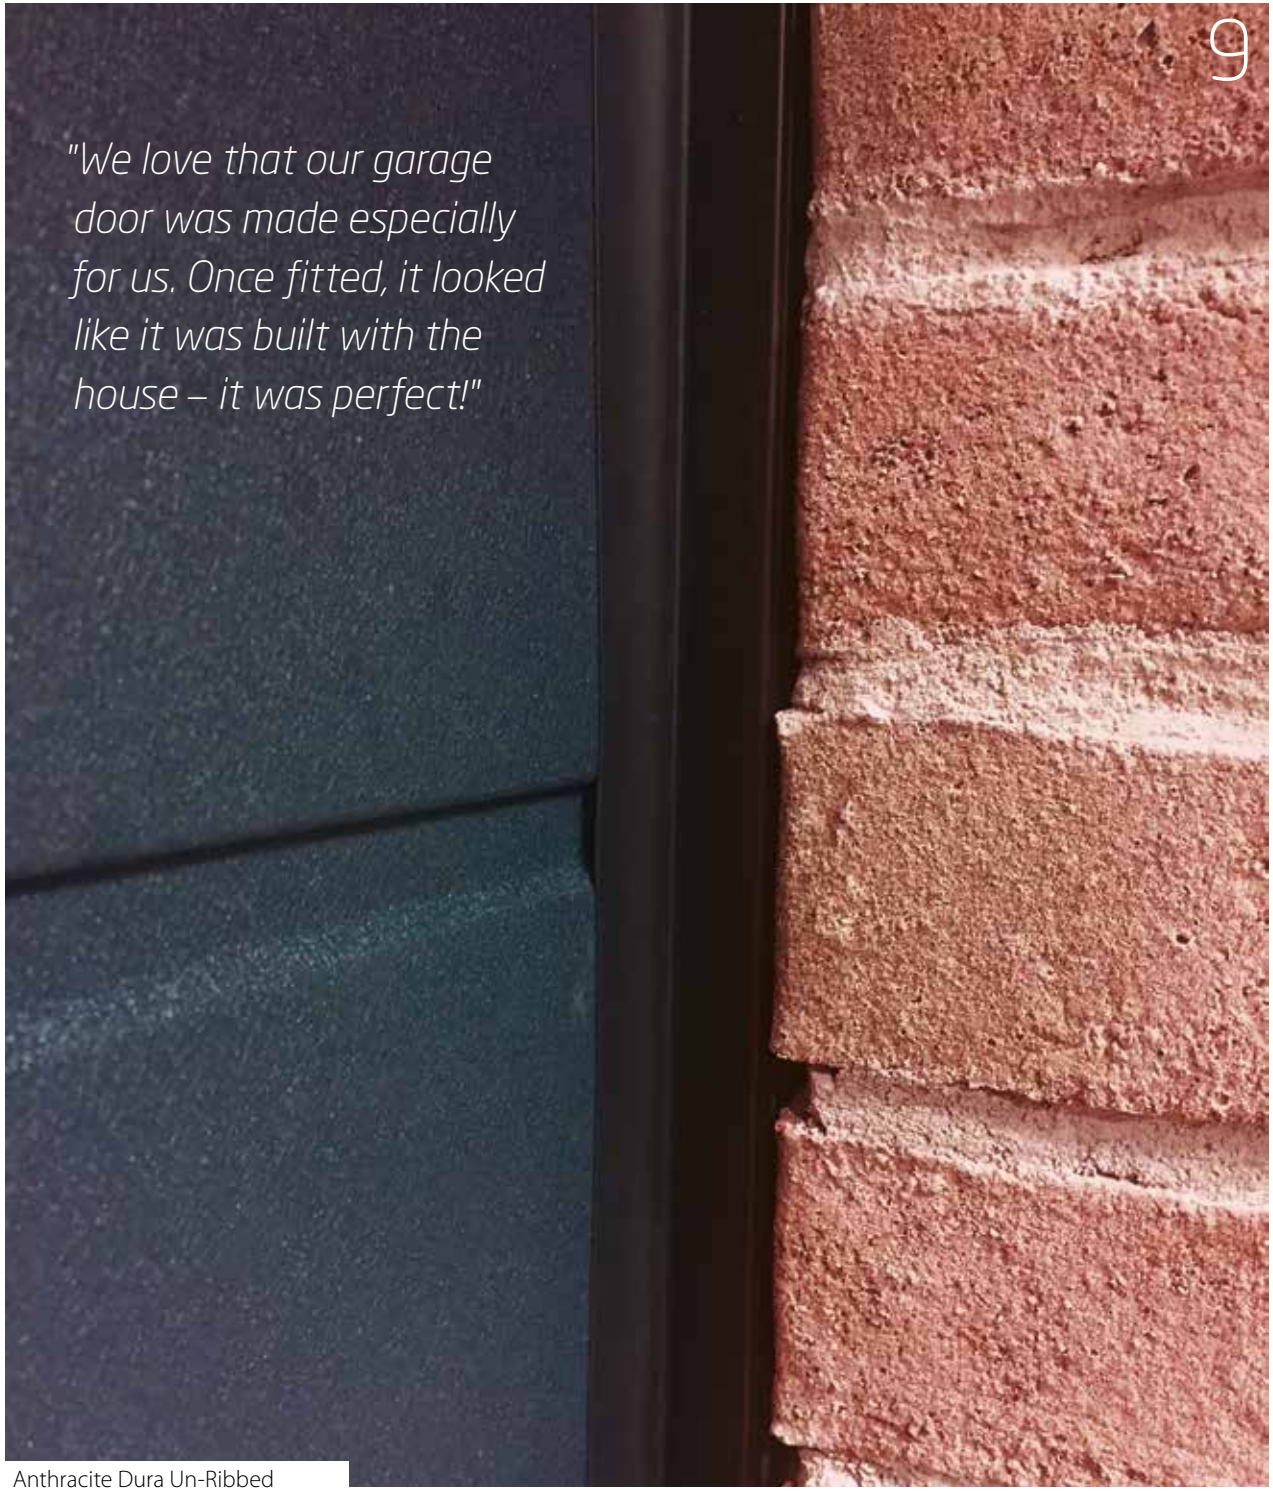
Chartwell Green Smooth Ribbed

Every garage door is made to measure – a bespoke fit for each and every house.

There is nothing more satisfying than a perfect fit, and because our sectional garage doors are made to measure, this is guaranteed every time. A perfect fit means a perfect seal so your garage will remain watertight no matter what the British weather throws at us!

Proudly Manufactured in the UK

All of our SeceuroGlide Sectional garage doors are made in our factory in the Lancashire countryside, by specialist assembly engineers and state of the art machinery. From order through to despatch, each door is handled with care and given the utmost attention to detail, meaning once installed, your new Sectional garage door will be everything you hoped it would be – stunning good looks, smooth operation and a perfect fit. Maximise drive-through width, increasing space and flexibility with the option to install behind the brickwork.



Anthracite Dura Un-Ribbed

Superior Performance

Our insulated panels, not only keep the heat in, but on hot days, they help to keep your garage cool.

"My garage is my workshop, and it's important for me that it is warm during the winter months. The thick panels have definitely helped to keep my garage cosy, meaning I can work on my projects all year round!"

Insulated Panels

According to the RAC Foundation just 24% of garage owners use them to store their car. Instead, it is becoming increasingly popular to use our garages as storage space or even as an additional room in our homes. If your garage is your home-office, gym or workshop you'll love the increased insulation provided with the 40mm thick SeceuroGlide panels. Consisting of a CFC-free core and encased between two steel sheets, the panels are coated in a hard-wearing polymer finish and are encased in substantial weather-seals which reach 30mm into the opening at the top, sides and bottom of the door, providing protection against wind and rain.

Panel Performance

All of the SeceuroGlide Sectional panels are constructed with two steel sheets which encase a foam core for strength and insulation. The steel is hot dip galvanised, then a primer and a polyester finish coat is applied. Our standard finishes feature superior performance against corrosion and weathering. The surfaces are easy to clean with water and natural soap, so maintaining the pristine look of your garage door can be done in as little as 5 minutes!

Anthracite Smooth Centre Ribbed

High grade materials are used to ensure a durable garage door, to withstand everyday living.

By choosing a SeceuroGlide Sectional garage door, you are investing in a door that will last for years to come, however its classic, understated appearance mean it will be a timeless addition to your home.

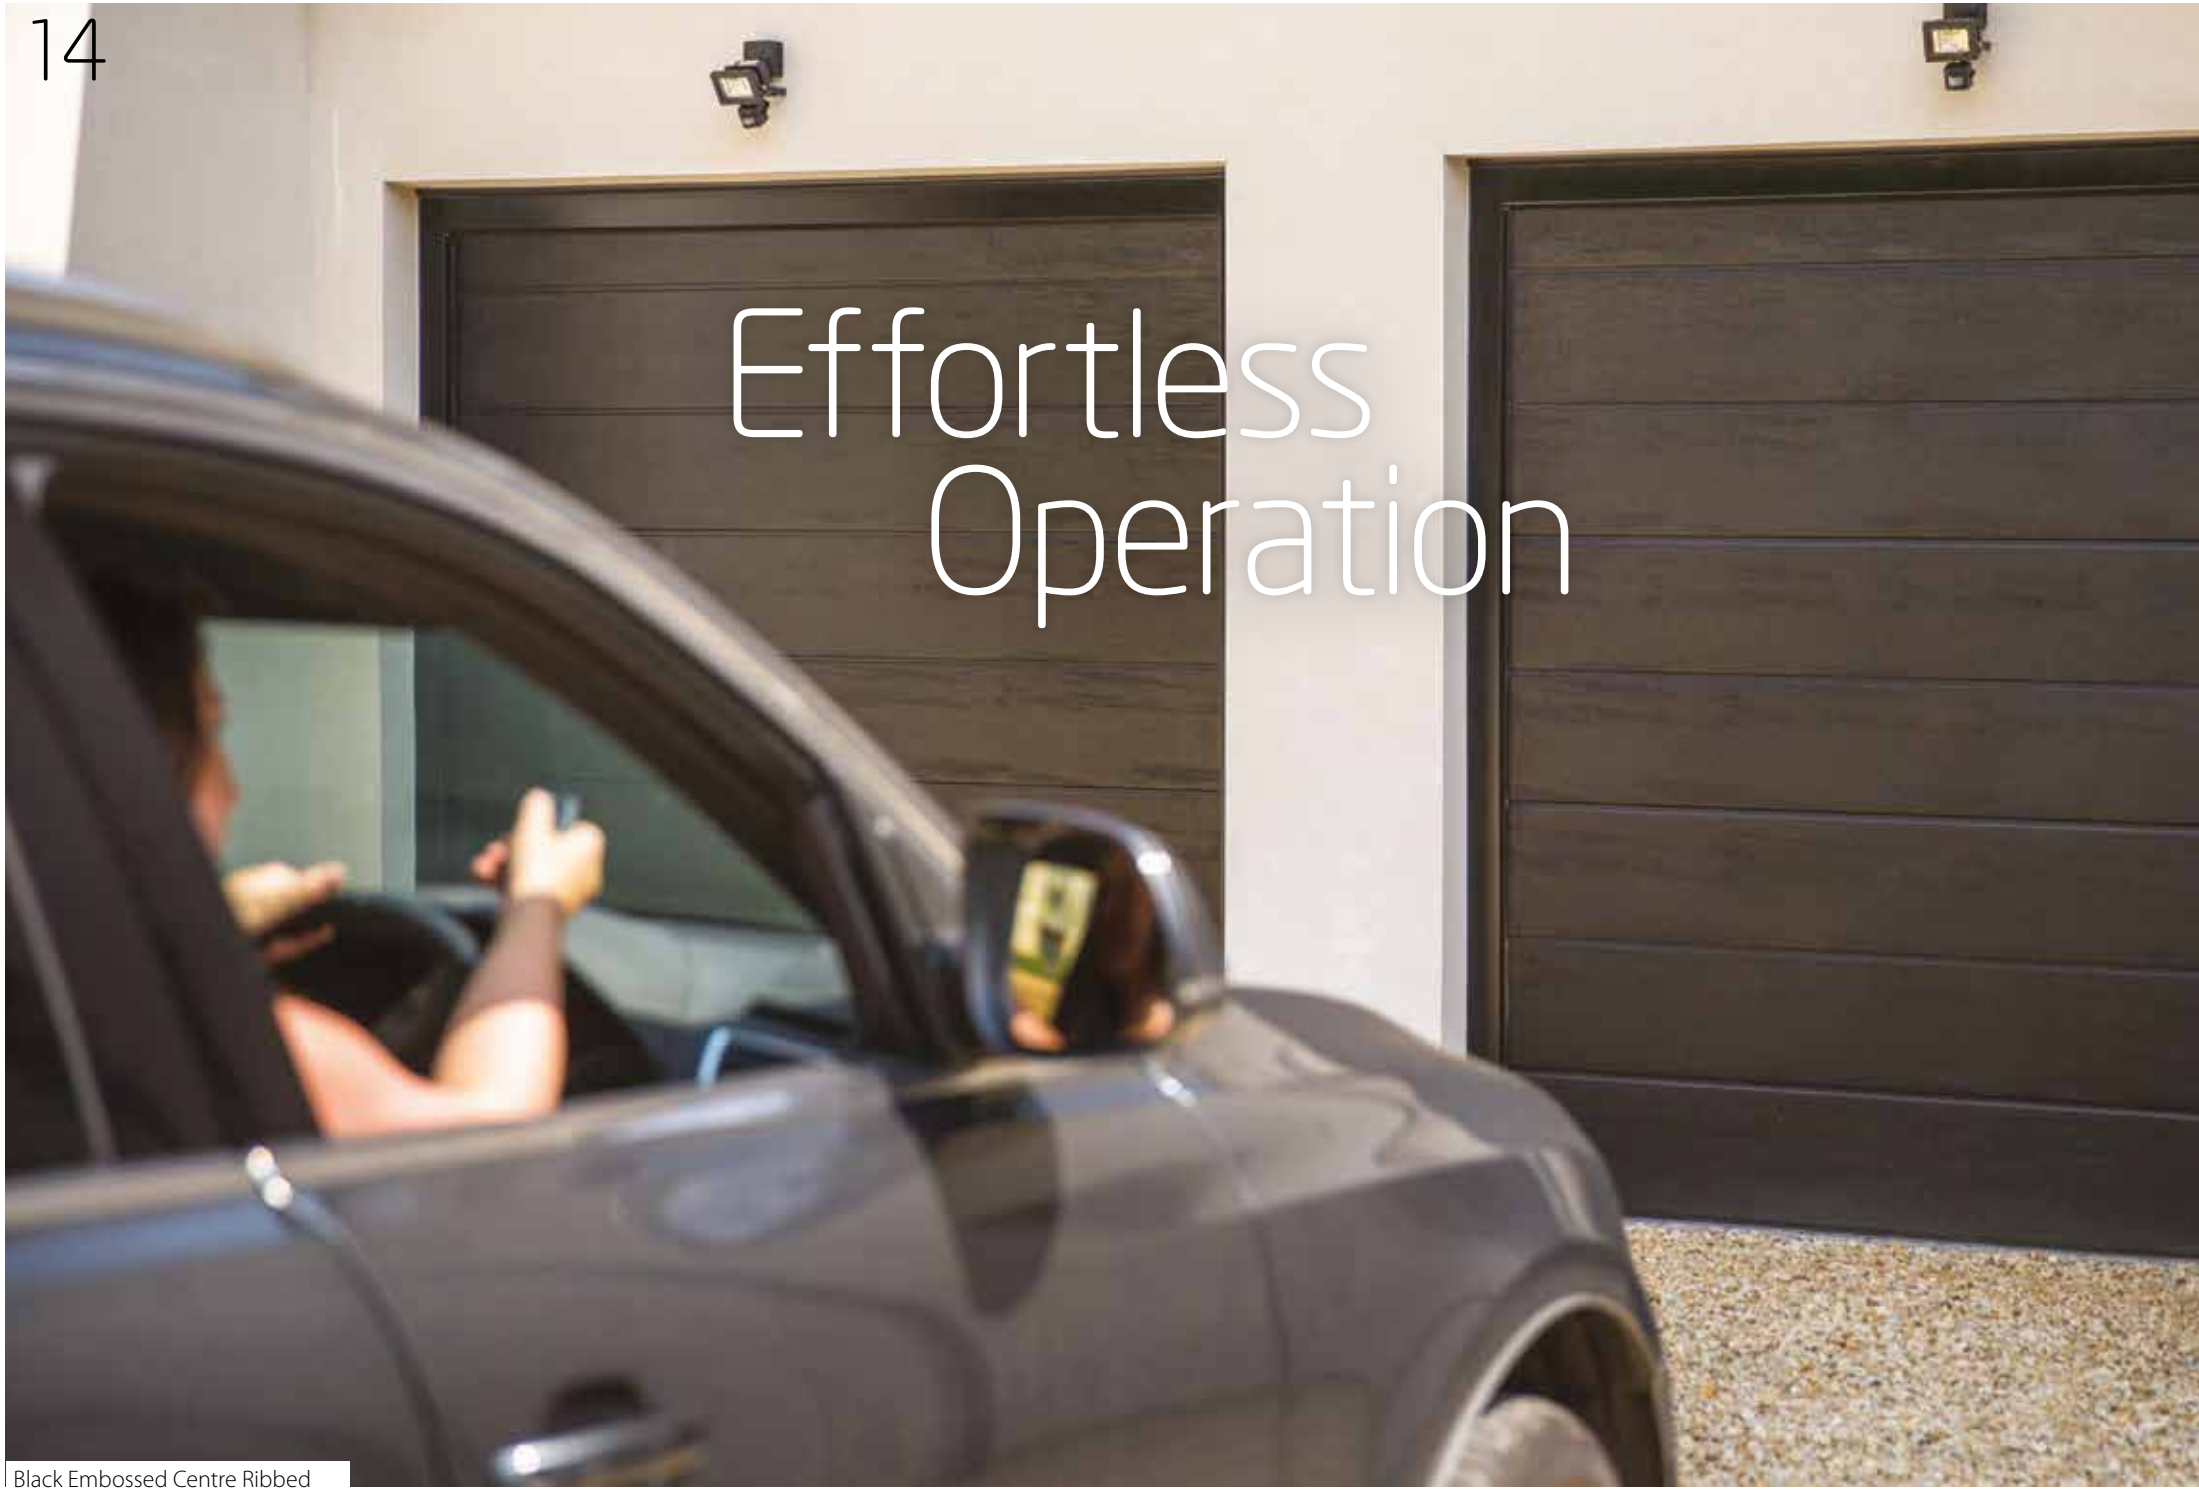
Unique tracking system

Engineered by industry experts and developed to the highest specification, SeceuroGlide Sectionals are the only doors to feature a unique track connecting system. Manufactured by our European partners, this patented system uses smart connect tracks, which allows the installer or engineer to adjust the tracks, ensuring your door will run smoothly for many years to come.

With superior components, expert manufacturing and fully approved installers, our sectional garage doors provide not just a sleek design, but a quality finish that is visible both inside and out.

- Made in Britain
- Patented track connecting system
- Made to measure
- Innovative safety features
- Automated control
- Stunning accessories

"I am blown away by the quality of my new door. It far exceeds my expectations and is a joy to use."



Effortless Operation

Black Embossed Centre Ribbed

Perhaps one of the SeceuroGlide Sectional's best features is its automated control.

Guaranteed to give your garage a touch of luxury, electrically operated garage doors provide both convenience and simplicity, whilst maximising the space inside your garage.

"Now that I am retired, I was finding it difficult to lift and open my old garage door. Electric operation has made my life so much easier."

Electric automation

With electric automation you can operate your door without leaving your home or car. Drive straight up to your garage, open your door and drive straight in. Perfect for wet and windy conditions! Manual option also available.

Smooth operators

Available with a choice of operators, including the Black Edition which provides smooth, quiet operation and comes complete with a 5-year warranty. The Black Edition motor also benefits from built-in advanced security features.

Choice of remotes

Make your door your own with a choice of 5 stylish remote controls. Each door comes complete with 2 remote controls so choose two alike or mix and match – the choice is yours!

Easy to use

The simple design of our remote controls results in a door which is extremely easy to use. With SeceuroGlide Sectional, access to your garage really is as simple as the click of a button.

Manual Option Also Available

NEW Chrome Deluxe Remote

A Beautiful Finish

Anthracite Dura with Circular Stainless Steel Windows

Stunning options for any home.

Choose your new garage in 4 simple steps:

1 Panel design

Begin by choosing from our 4 elegant panel types. If you're looking to achieve a traditional style we have the popular Georgian cassette, or for a more contemporary appearance, how about the centre ribbed or un-ribbed panels?

Georgian Cassette (Embossed only) | Centre Ribbed | Ribbed | Un-Ribbed (Smooth only)

2 Finish

Next, choose your finish. Whether you go for smooth or embossed, you'll love the finished look.

Smooth | Embossed

3 Colours

This is where you can truly create your ideal garage door. Available in any RAL colour or BS colour, SeceuroGlide Sectionals provide the opportunity to match your door to your windows, front door or even your car! Here are some of our most popular finishes, including our metallic colours.

SeceuroGlide | Sectional Elite
Side Mounted System

The feature-packed, side sprung, Elite sectional door.

Using our unique track connecting system the Elite features a patented running mechanism providing smooth operation whilst increasing the strength of the door.

Features

- Unique track connecting system
- Reinforced bracket with pre-fitted cables and springs
- Partially tensioned springs
- Adjustable roller brackets and vertical tracks
- Just 100 mm headroom required (130 mm for electrical operation)

	Description

**DOH Daylight Opening Height
DOW Daylight Opening Width

SeceuroGlide | Sectional Plus
Front Mounted System

Ideal for larger garages – available in sizes up to 5000 mm wide.

The Plus has all the same running gear and tracks as the Elite but uses a front-mount torsion springing system to lift the door safely.

Features

- Anti-drop safety brakes as standard
- Reinforced anchor plates for front rollers.
- 160 mm headroom required

SeceuroGlide | Sectional Compact
Rear Mounted System

Low on headroom? Compact is the answer.

With just 90 mm of headroom required, the Compact uses a rear-mount torsion springing system, meaning it can fit into almost any garage. Small in size but big in features, the Compact has all the design benefits of the larger SeceuroGlide doors

Features

- Just 90 mm of headroom is required
- Rear-mount torsion springing system

Showing the Elite track system.
Springs are located differently on each track system.
