Why Rockdoor is Different	86-87

Reassuringly **Rockdoor**

Since 1997, we've led the way in door design and development, combining an approach where style and security are given equal importance.

It helps that we're obsessed with doors. We've channelled that passion into challenging industry norms, while building a name synonymous with quality and performance. We've created a unique collection of door styles and glass designs to suit homes across the UK.

Throughout this brochure, we'll showcase our range of door and glass styles, while highlighting why you can choose Rockdoor with confidence – and why, when it comes to style and security, we're in a league of our own.

Manhattan - White - Misted Glass

Manhattan

The aptly named Manhattan is one of Rockdoor's most popular styles. Its contemporary design features five beautifully proportioned square glazing panels, aligned through the centre of the door to create a clean, balanced aesthetic.

Manhattan - Irish Oak - Curve Glass

Vogue

The Vogue is designed to make a lasting impression. Perfectly suited to modern properties where an extra touch of flair is called for, it can also create a bold statement on more traditional homes. Distinctive, versatile and effortlessly stylish, the Vogue really is a design like no other.

Vogue - White - Shade Glass

Vogue - Anthracite Grey - Optima Glass

Vogue - White - Haze Glass

Vogue - Agate Grey - Cube Glass

The Cube (left) is one of our most popular glass options – and it's easy to see why. Its intricate 3D design creates an impressive level of privacy, while allowing light to pass through. The result is the perfect balance of privacy, style and sophistication.

We would recommend viewing this door style on our 3D designer to truly appreciate the effect of the Cube glass design.

Vogue

Vogue - Anthracite Grey - Cube Glass

Vogue - Black - Ocean Glass

Vogue - White - Shade Glass

Vermont

Unique to Rockdoor, the contemporary Vermont suits a wide variety of properties, combining a long, narrow glass aperture with sophisticated moulding detail. Pair it with one of our stylish bar handles for a sleek finish.

Vermont - White - Haze Glass

Vermont - Anthracite Grey - Continuity Glass

Vermont - White - Shade Glass

Vermont - White - Haze Glass

Its modern design has made it a firm favourite with homeowners across the country, while its versatility means it looks equally striking in a wide range of colours.

Choose the Vermont with our Continuity glass design and you have one of Rockdoor's best-selling combinations across the range.

Synonymous with style and flair, the Vermont perfectly captures the essence of Rockdoor – creating a stunning contemporary entrance that's designed to make an impression.

Vermont - Anthracite Grey - Shade Glass

Vermont

Vermont - Light Oak - Haze Glass

Vermont - Anthracite Grey - Grey Shades Glass

Aspen

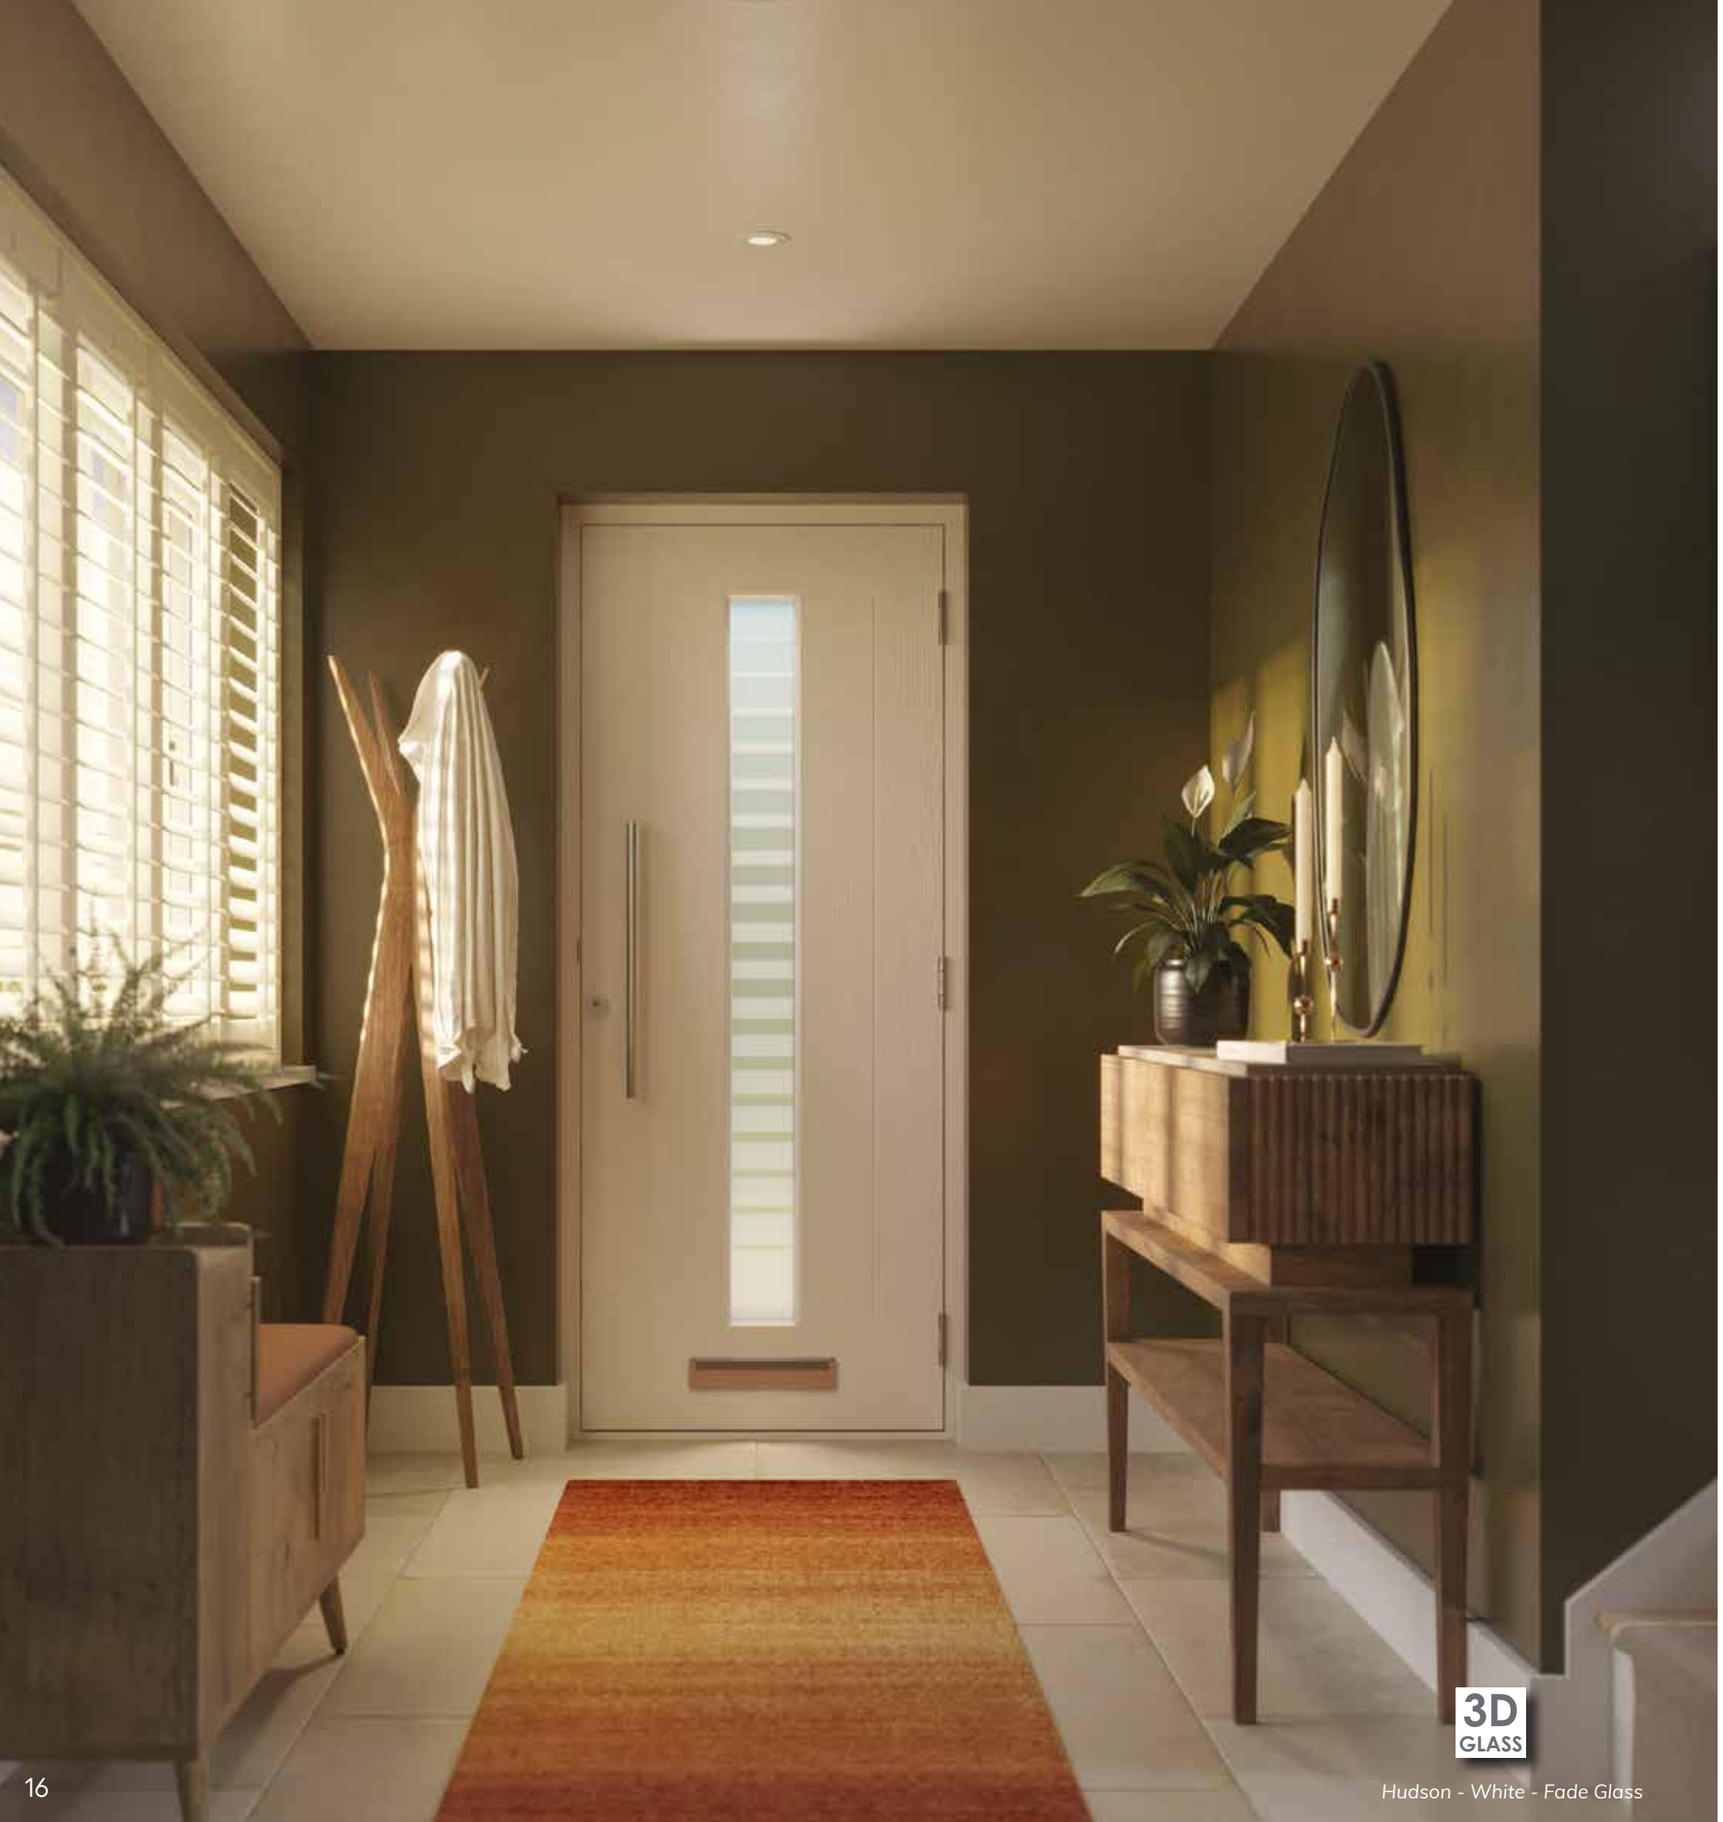

The Aspen brings a distinctive look, combining traditional detailing with a modern edge.

Its vertical mouldings are complemented by a stylish, beautifully proportioned glazing panel, creating a style that balances classic character with contemporary appeal.

Aspen - Pebble Grey - Reeded Glass

Aspen - White - Clear Glass

Hudson - White - Fade Glass

Hudson

The Hudson brings a luxurious, contemporary feel to any property. Its full-height central glazing panel is framed by carefully matched moulding details, creating a beautifully balanced design with real visual impact.

From the hundreds of unique glass designs we've introduced over the years, 'Fade' has quickly become a firm favourite. Eye-catching yet understated, its delicate and intriguing design creates a sophisticated finish.

Hudson - Pebble Grey - Fade Glass

Warwick

A central glazing panel sits between two moulding details from the top of the door, with three matching panels below.

Choose from our family of glass designs, including Shade and Border, to create the perfect look. With its classic panelled design, the Warwick brings a traditional feel to any property, while its clean lines also complement more contemporary homes.

Warwick - Black - Reveal Glass

Warwick - White - Reveal Glass

Warwick - Pebble Grey - Border Glass

Warwick - White - Clear Glass

Byron - White - Regent Glass

Byron

The Byron brings a fresh take on classic styling, combining traditional detailing with beautifully proportioned glazing for an entrance that feels both timeless and distinctive. Its refined mouldings and larger glass panels give the design an elegant presence, making it a natural choice for a wide range of properties.

Byron - White - Clear Glass

Byron - Slate Grey - Misted Glass

Byron - Pebble Grey - Eclipse Glass

Byron - Cream - Misted Glass

Jacobean

The Jacobean shares the classic styling of the Byron, but with smaller proportions that make it perfectly suited to narrower door openings. Simple yet stunning, its balanced design creates an elegant entrance without overwhelming the property.

Two symmetrical glass panes run halfway down the door, allowing plenty of natural light into the home. Versatile enough for front, back or side entrances, the Jacobean is a timeless choice for any property.

Jacobean - Black - Apollo Glass

3D GLASS

Jacobean - White - Border Glass

Illinois - Pebble Grey - Pinnacle Glass

Illinois

The Illinois is a beautifully balanced door style, combining two elegant glass apertures with a delicate swept head for a distinctive and timeless look. Its clean proportions make it a versatile choice for a wide range of properties.

Illinois - Pebble Grey - Door Detail

Illinois - Pebble Grey - Polished Bull Ring Knocker

Illinois - White - Misted Glass

Illinois - White - Clear Glass

Newark - Agate Grey - Square Lead Glass

Newark

The Newark brings together the best of old and new, combining traditional moulding details with a clean, contemporary finish. Its classic styling gives it a timeless appeal, while modern manufacturing and Rockdoor security technology provide performance you can rely on.

Newark - Black - Bright Star Glass

Newark - Cream - Jubilee Glass

Newark

Thanks to the traditional elements of the door, the Newark is the perfect family door for those looking to mix style with any setting and goes perfectly with our Heritage Plus lock, which is available on the majority of our Rockdoor styles.

Newark - Black - Iris Glass

Newark - White - Jubilee Glass

Astoria - White - Kensington Glass

Astoria

The Astoria features a stunning crisp rectangular window at the top of the door with three beautiful mouldings underneath, a 1930s classic that also suits modern homes.

Choose from traditional glass designs such as the Kensington, Green Shimmer and Grey Shimmer, all of which include a beautiful stained-glass design. Alternatively choose the Network design that features eight 3D rectangles for a more modern look.

Astoria - Chartwell Green - Green Shimmer Glass

Clearwater - Agate Grey - Reeded Glass

Clearwater

The Clearwater brings a fresh, distinctive look to Rockdoor, centred around its striking round glass design. Perfectly suited to everything from characterful country homes to stylish coastal properties, its soft, flowing shape adds a touch of individuality to any entrance.

Clearwater - White - Clear Glass (featuring cat flap - see page 75)

Clearwater - Agate Grey - North Star Glass

Indiana - Anthracite Grey

Indiana

The sleek lines of the Indiana have made it one of Rockdoor's most popular styles. Paired with a stainless steel bar handle, complementary knocker and letterplate, it creates a striking entrance with a clean, contemporary feel.

For added security, solid doors can also be paired with wire mesh reinforcement. Stylish, secure and energy efficient, the Indiana delivers the perfect combination of modern design and Rockdoor performance.

Indiana - Irish Oak

Portland - Pebble Grey - Square Lead Clear Glass

Portland

If your priority is bringing plenty of natural light into your home, look no further than the Portland. Its generous glazing is combined with the security of S-Glaze technology, while ornate glass bevels and stunning Gluechip glass offer a choice of beautiful finishes.

Portland - White - Apostle Glass

Carolina & Tennessee

The Carolina and Tennessee are popular choices for homeowners looking to create a traditional entrance. The Carolina features a classic Georgian-inspired glazing aperture, offering excellent privacy, while the Tennessee allows more natural light into the home and can be personalised with a wide range of glass designs.

Tennessee - Chartwell Green - Crystal Bevel Glass

Carolina - White - Misted Glass

Windsor

The Windsor features a generous rectangular glazing aperture, allowing plenty of natural light into any home. Its versatile design can be paired perfectly with a low aluminium threshold, making it an ideal choice for easy access between kitchens, patios and laminate flooring.

Windsor - Ruby Red - Linear Glass

Windsor - White - Clear Glass

Colonial & Regency

The Colonial and Regency combine intricate detailing with timeless traditional styling, making them ideal for homeowners who want to enjoy the character of a classic entrance while maintaining a high level of privacy.

Colonial - Black

Regency - Black - Clear Glass

Arcacia & Kentucky

The Arcacia brings timeless traditional character to any entrance, with its distinctive timber-effect appearance making it a firm favourite with Rockdoor customers over the years. The Kentucky offers a similar classic appeal, featuring a large arched glazing panel that allows plenty of natural light into the home.

Arcacia - Irish Oak - Summit Glass

Georgia & Montana

The Georgia and Montana share elegant moulding details, but each offers its own distinctive character. The Georgia features a larger glazing panel framed by traditional curved mouldings, while the Montana's smaller oval glass aperture beautifully highlights the intricate detailing surrounding it.

Georgia - Black - Clear Glass

English Cottage - Agate Grey - Clear Glass

English Cottage

A timeless classic that has retained its popularity over the years. The English Cottage combines a narrow mid rail with a softly curved top moulding and perfectly proportioned glazing, creating a beautifully balanced entrance with enduring traditional appeal.

English Cottage - Light Oak - Square Lead Glass

Cottage (Spy & View Light)

The Spy View features a deep mid rail and straight top moulding, framing its aptly named glazing panel. The View Light replaces the top moulding with larger glass, allowing even more natural light to flood into the home.

Cottage View Light - Pebble Grey - Square Lead Clear Glass

Cottage Spy View - White - Clear Glass

Introducing

The Stable

Bring timeless character and practical versatility to your home with a Stable Door. Combining the traditional charm of a split-door design with the security, strength and performance you expect from Rockdoor, they're a stylish choice for kitchens, gardens and country-style properties.

Choose from a range of options to create a stable door that's uniquely yours. Whether you're looking for classic country character or a more contemporary finish, Rockdoor delivers style without compromising on security.

Stable Spy View - Pebble Grey - Square Lead Clear Glass

Exclusive to ROCK**DOOR**.

Stable View Light

The Stable View Light features a generous glazed aperture, bringing more natural light and visibility into the home while retaining the strength and security of a Rockdoor. Perfect for cottages, farmhouses or modern homes looking to add a touch of rustic character.

Stable View Light - White - Clear Glass

Stable View Light - Cream - Clear Glass

Stable View Light - White - Clear Glass

Stable View Light - Light Oak - Clear Glass

Practical

A slide bolt allows you to operate the top and bottom of your Stable Door independently, making it easy to bring fresh air into your home. It's also ideal for keeping pets safely inside while enjoying the outdoors.

Unique & Secure

Our custom centre seal ensures the door works as one to keep out the elements. Stable Door locks are just as robust as our other doors, featuring multipoint locks with two strong deadbolts and two hooks at both the top and bottom for added security.

Stable Spy View

Stable doors combine charm and convenience, making them a firm favourite with homeowners. The Stable Spy View is ideal for those wanting the flexibility of a stable door, with a smaller glazing aperture providing an added level of privacy.

Stable Spy View - White - Clear Glass

Stable Spy View - Light Oak - Clear Glass

Classic - Anthracite Grey - Clear Glass (French door lock)

French Doors

French Doors feature lever handles on both door leaves, with two mechanical locks allowing each door to be operated independently. For this reason, French Doors are not available with bar handles.

The locks are specially designed for smooth, easy operation, making French Doors an ideal choice for opening out onto patios, gardens and other outdoor spaces.

Classic - White - Clear Glass (French door lock)

Classic - White - Clear Glass (French door lock)

Vogue - Black - Cube Glass (Double door lock)

Double Doors

Double Door locks use a single key to operate the main door, maintaining a traditional, clean appearance. Once open, the secondary door can be released manually using finger bolts fitted to the door leaf.

With lever handles, only the main door features a handle, while bar handles can be fitted to both doors.

Hudson - Light Oak - Fade Glass (Double door lock)

Vermont - Black - Grey Shades Glass (Double door lock)

Vermont - Irish Oak - Clear Glass (French door lock)

Aspen - Agate Grey - Clear Glass (Double door lock)

Vogue - Rosewood - Optima Glass (French door lock)

Introducing

The Dune

Dune Retreat - White - Misted Glass

For years, composite doors have looked to timber for inspiration. But traditional woodgrain doesn't always complement modern architecture. That's why Rockdoor created the Dune, a new texture designed with contemporary homes in mind.

The Dune texture breaks away from convention creating a striking, modern finish inspired by the natural contours of sand dunes. The unique texture flows from the sides of the door towards the glazing aperture, where it cleanly falls away into the glass to create a crisp, seamless finish.

Exclusive to ROCK**DOOR.**

Dune Vision - Anthracite Grey - Misted Glass

Dune Retreat - Anthracite Grey - European Rose Handle

Dune Retreat - Anthracite Grey - Misted Glass

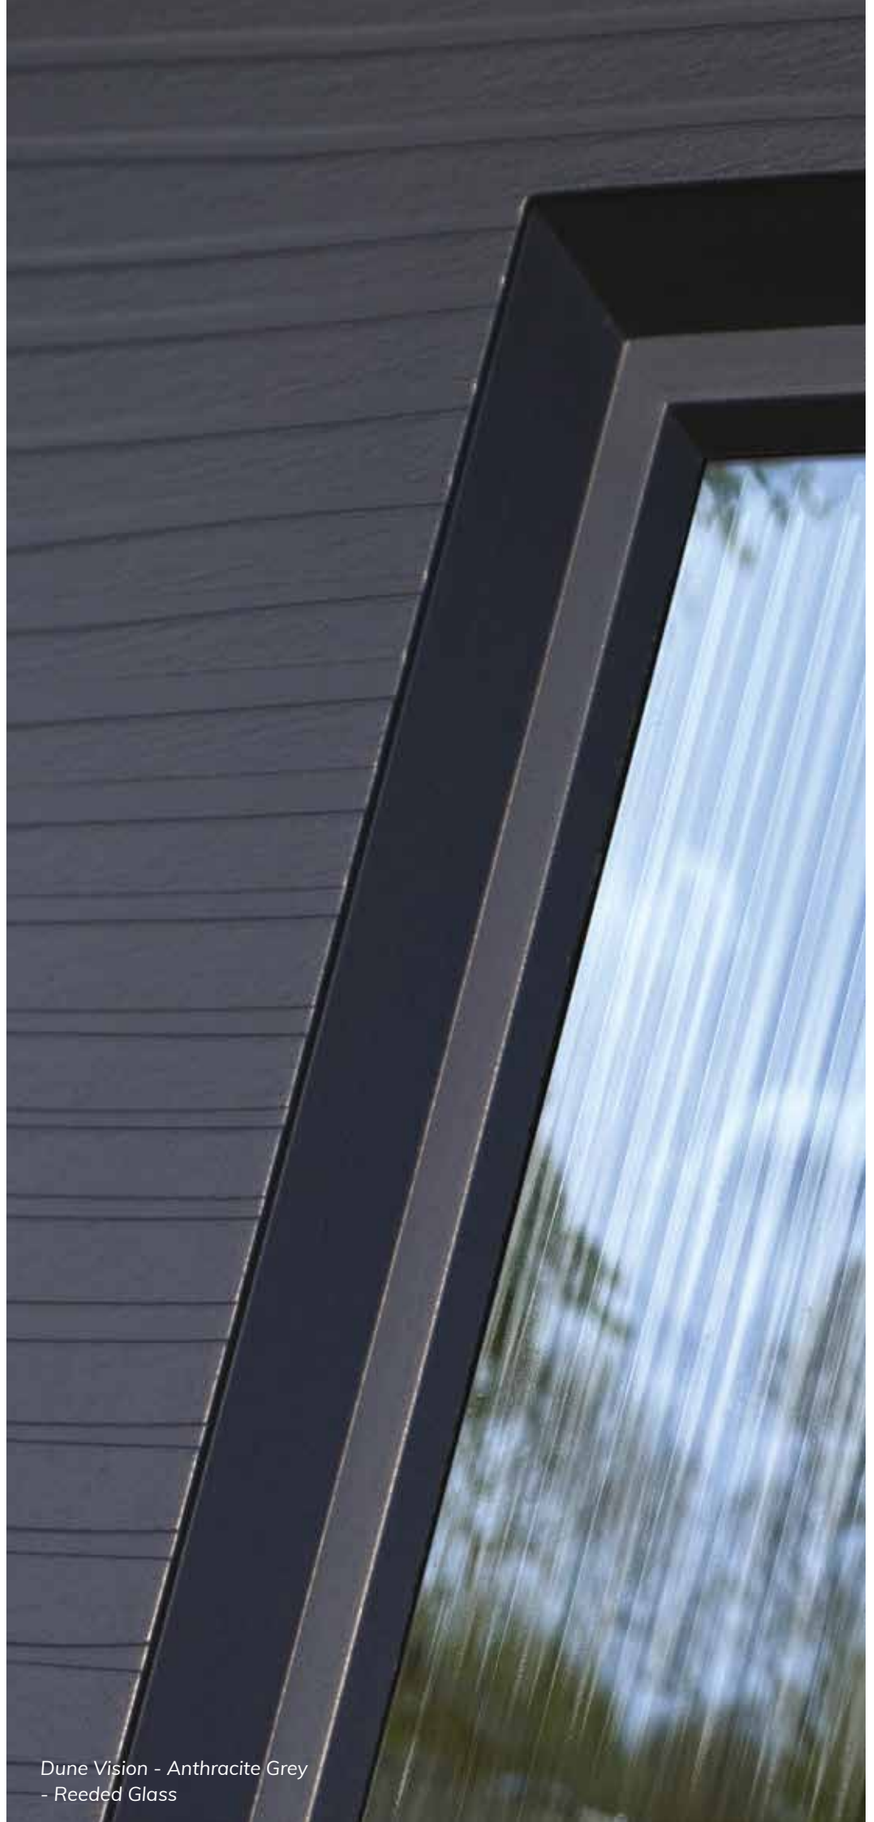

Dune Vision

With a tall glass aperture running almost the full length of the door, Dune Vision is designed to make a statement while flooding your hallway with natural light. The result is a fresh, bright and welcoming entrance with unmistakable contemporary appeal.

Dune Vision - White - Misted Glass

Dune Vision - Anthracite Grey - Reeded Glass

Dune Retreat

For homeowners looking for contemporary style with added privacy, Dune Retreat delivers. Its ultra-slender glass aperture, a little over 100mm wide, can be paired with Reeded glass, creating a striking contrast between the vertical glazing pattern and the flowing Dune texture.

Dune Retreat - White - Misted Glass

Choose your **Perfect Glass**

The following pages showcase the full range of glass designs available from Rockdoor. We also offer Georgian bars, along with Square and Diamond lead patterns, giving you even more choice when creating your perfect entrance.

Most of our glass designs are shown with either Gluechip or Sandstone backing glass to provide privacy. Please speak to your installer for advice before ordering, to ensure you select the correct glass combination.

Our 3D glass designs do not require a backing glass, as the pattern is incorporated into both the front and back panes to create the distinctive 3D effect.

Backing Glass

All Rockdoor glass is double glazed, helping deliver excellent thermal performance. Your choice of backing glass can also have an impact on the Door Set Energy Rating (DSER). Choosing an obscure backing glass provides greater privacy, while clear glass can help achieve a higher DSER. Your installer can advise on the best combinations.

SANDSTONE

A versatile and popular obscure backing glass, featured throughout this brochure to showcase many of our glass designs. Choose Sandstone where additional privacy is required, while still allowing the decorative glass design to stand out.

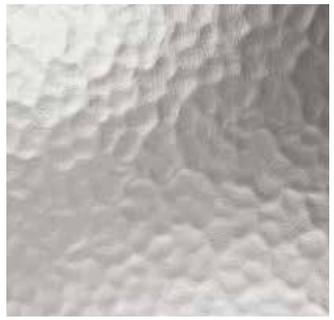

GLUECHIP *(Random pattern)*

An obscure backing glass but also features as part of many of our glass designs. Where Gluechip is already incorporated into the design, we recommend choosing clear glass as the backing glass to ensure the detail of the pattern remains visible.

Rockdoors are available in 14 colours, allowing you to choose the perfect finish for your home. Each colour features a textured finish to replicate the look and feel of timber, with the exception of Dune, which features its distinctive horizontal pattern.

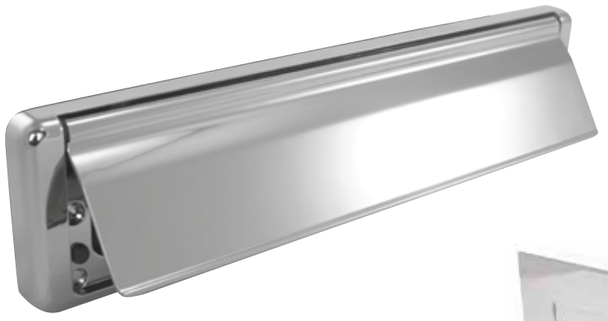

Our colours are foiled rather than painted, helping to prevent flaking and fading. As Rockdoors are made to order rather than cut to size, every colour is available on both sides of the door. Please check our colour swatch before ordering.

Classic Furniture

All our Classic Furniture range comes with an installer-backed guarantee, giving you complete confidence in its quality and performance. Designed to look as good as it performs, our furniture is built to complement your new Rockdoor and stand the test of time.

Thresholds & Drip Bars Explained

LOW ALUMINIUM THRESHOLD

Our 15mm aluminium threshold is available in gold or silver and offers:

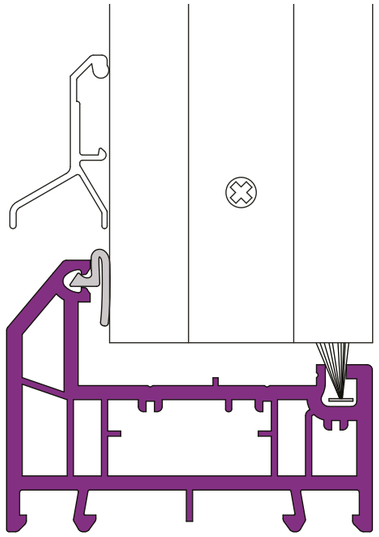

Drip bars can match the furniture or the door colour.

- *Good thermal performance*
- *Excellent durability*
- *Suitable for wheelchair access*

PVC THRESHOLD (SLIM & FULL)

Our PVC-U thresholds are available in two heights: 52mm and 72mm, with the colour matched to the door frame.

Drip bars can match the furniture or the door colour.

- *Maximum thermal performance*
- *Ideal for carpeted entrances*
- *52mm option provides easier access*

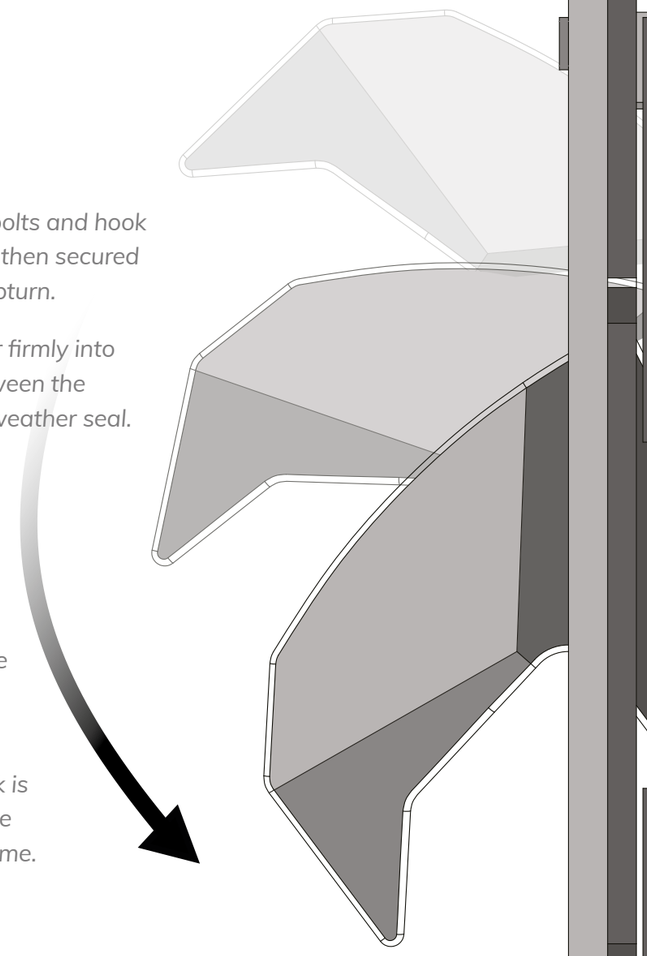

Locks Explained

LEVER

- *Raising the handle throws the shootbolts and hook locks into the door frame. The door is then secured with a simple turn of the key or thumbturn.*
- *Raising the handle also pulls the door firmly into the frame, creating compression between the door sash and seals for an effective weather seal.*
- *Available with lever/lever and lever/pad handles.*

KEY

- *The door must first be pushed into the frame to create compression against the door seals.*
- *A keywind or keywind thumbturn lock is then manually operated to engage the deadbolt and hooks into the outer frame.*

INSTANT

- *There's no need to manually lock the door with a key. Magnets detect when the door is closed and engage the deadbolt and hook locks into the outer frame.*
- *Instant locks provide less compression between the door and frame than handle or key-operated locks, which achieve a tighter seal overall.*

Switch latch feature comes as standard with key lock & instant lock.

NO ACCESS (UP)

A key is required for access.

ACCESS (DOWN)

The door can be easily pushed open.

Unrivalled **Construction.**

The way every Rockdoor is carefully designed, engineered and manufactured is what sets us apart and makes us stand out from the crowd.

BUILT FOR SECURITY

Security starts with the overall construction of the door itself. Every Rockdoor features a reinforced aluminium inner frame, providing structural strength and rigidity throughout the door. This is combined with a high-density polyurethane foam core, which helps maintain the door's strength and stability while also contributing to its thermal performance.

Impossible **to cut through.**

Rockdoors can include optional steel security mesh for added strength, helping resist cutting and make the door harder to penetrate. *Ask your installer for details.*

FEATURES

- Steel Security Mesh
- Strong Internal Structure
- Unique to Rockdoor

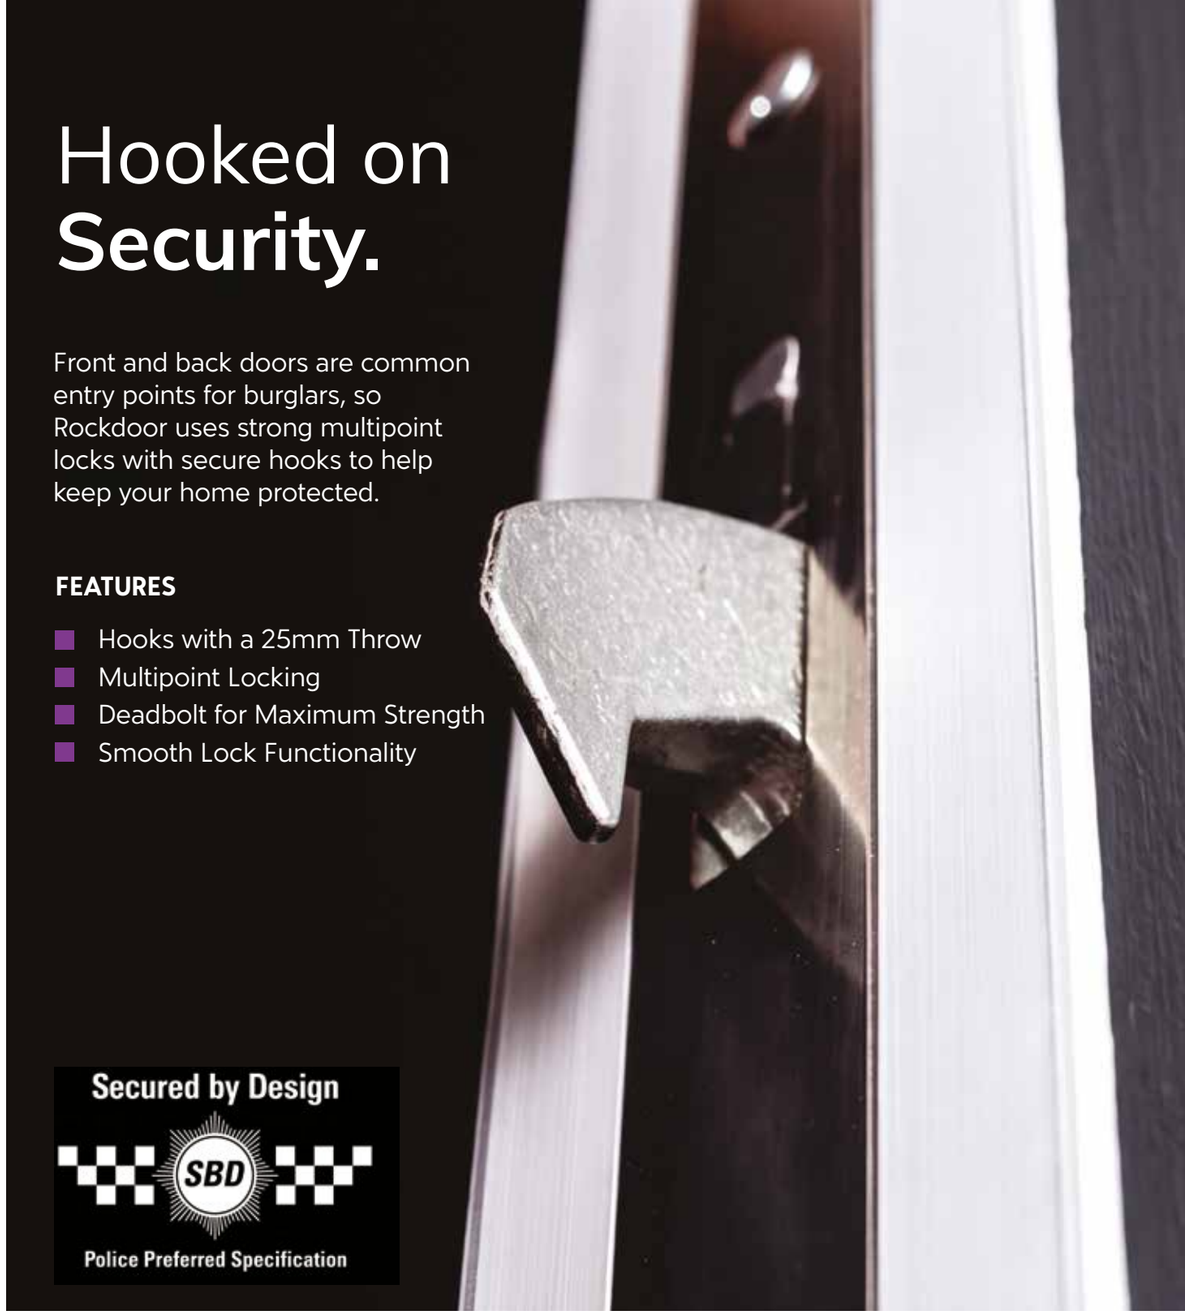

PROTECTING HOMES SINCE **1997**

Hooked on **Security.**

Front and back doors are common entry points for burglars, so Rockdoor uses strong multipoint locks with secure hooks to help keep your home protected.

FEATURES

- Hooks with a 25mm Throw
- Multipoint Locking
- Deadbolt for Maximum Strength
- Smooth Lock Functionality

BURGLAR PROOF MULTIPOINT LOCKS

Rockdoors feature multipoint locks, securing the door at several points around the frame. The locking mechanism is securely fixed into the reinforced aluminium inner frame, providing a strong foundation and additional resistance against forced entry. Working alongside the steel-reinforced outer frame and robust door construction, the multipoint locking system provides multiple layers of protection to help keep your home secure.

Why settle **for anything less?**

S-GLAZE EXCLUSIVELY FROM ROCKDOOR

Glass locked in **for life.**

Every Rockdoor features our unique S-Glaze technology, meaning the glass is securely bonded into the door itself and locked in for life.

With no glazing cassette to attack, S-Glaze helps prevent forced entry through the glass, while also reducing the risk of draughts around the glazing aperture.

LAMINATED GLASS

Rockdoor glass is toughened as standard, with the option to upgrade to laminated glass for enhanced security in accordance with Secured by Design. Laminated glass consists of two panes bonded together with a tough plastic interlayer, similar to a car windscreen.

ZERO FADING

Unlike traditional glazing cassettes, which can be prone to fading and discolouration over time, S-Glaze is integrated directly into the door for a clean, durable finish that won't suffer from exposed plastic surrounds.

A

Thermal **Performance**

Our glazing is designed to complement the excellent thermal performance of the door set, helping to keep your home warmer while reducing heat loss through the glazing.

A HIGH SECURITY DOOR DESERVES A HIGH SECURITY CYLINDER

£5,000 Guarantee

Our locking cylinder is BSI 3 Star Kitemark and Sold Secure Diamond approved, offering ultimate protection.

Updated to meet the latest requirements, it is designed to resist freezing, snapping, drilling, picking and bumping.

£5,000 LOCK GUARANTEE

We are so confident in our locks, that we offer a £5,000 security guarantee. Register your unique key code online to activate your guarantee, 10 year security warranty and 'optional' Key Secure registration for added protection. Scan QR code for more details.

SECURITY FEATURES

- Freeze Attack Protection
- Snake Rail Design for Enhanced Security
- Unique Lockdown Mode

5 KEYS SUPPLIED AS STANDARD

- Dimple and Slider Hybrid Key for Smooth Operation
- Prevent Unauthorised Key Duplication with 'Key Secure'
- Extra Keys Available Online

rockdoor.com/cylinder

Reassuringly **Secure**

STRONG BY DESIGN. BUILT TO PROTECT.

Engineered with advanced security features and built to protect what matters most, every Rockdoor is designed to give you confidence in the strength, security and protection of your home.

It's what goes on beneath the surface that makes a Rockdoor so strong and secure. Every component has a purpose, working together to create a robust, high-performance door set.

- **S-GLAZING**
  No glazing cassettes means the glass is bonded directly into the door, preventing glass removal while maintaining a clean finish.

- **STEEL SECURITY MESH**
  Increases the overall security of the door by using steel mesh.

- **PVC-U OUTER FRAME**
  Multi-chambered outer frame for high levels of thermal performance and strength.

- **STEEL KEEPS**
  Full-length steel keeps provide a strong fixing point for the hook locks, helping to resist forced entry.

- **HINGES**
  Three-way adjustable hinges are securely fixed into the reinforced frame, providing strength and allowing precise adjustment.

- **HIGH IMPACT PVC-U DOOR SKINS**
  Tough 3mm door skins, front and back, protect the door from everyday wear and tear.

MADE TO MEASURE

Every Rockdoor is made to measure, rather than being manufactured as an oversized door and cut down to fit. This means the door is built to the exact dimensions required, helping maintain the integrity and strength of its construction.

MADE IN BRITAIN

Why Rockdoor **is Different**

- **HOOKS**
  Steel hooks with a 25mm throw engage securely into the reinforced outer frame.

- **ENGINEERED INNER FRAME**
  A welded and reinforced door skeleton is impervious to moisture ensuring it won't swell or rot.

- **360° REINFORCED FRAME**
  The inner frame of a Rockdoor is fully reinforced with a 360° aluminium box section that makes the door super strong.

- **3 STAR CYLINDER**
  Our *Sold Secure Diamond* approved cylinders provide ultimate protection against all forms of cylinder attack.

- **DEADBOLT**
  Secures the sash to the outer frame acting as part of the multipoint lock.

- **HIGH DENSITY CORE**
  Our high-density polyurethane core provides strength, rigidity and thermal insulation, enhancing the overall performance of the door.
